Match the following formulas with correct titles

Finding the future value $\qquad$ $(1+i)^n = Fv \div Pv$ (with log)

Finding the present value $\qquad$ $Fv = Pv * (1+i)^n$

Finding the Compound interest $\qquad$ $(1+i)^n = Fv \div Pv$ (with root)

Finding the borrowing time $\qquad$ $CI = FV - PV$

Finding the interest rate $\qquad$ $PV = FV \div (1+i)^n$
