

3 Osserva le immagini e trova l'intruso.

A porcino

B muschio

C muffa

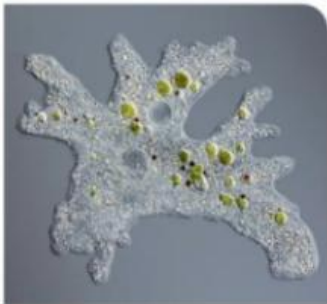

D lievito

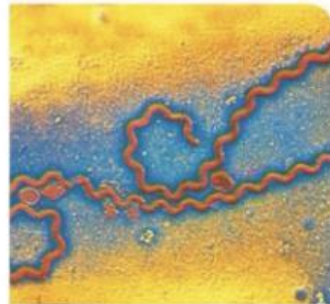

RICORDA

Al regno dei funghi appartengono diversi gruppi: i basidiomiceti, come i porcini, e gli ascomiceti, come le muffe e i lieviti.

4 Metti gli organismi nell'insieme giusto.

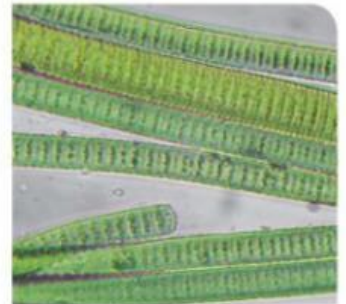

A Ameba, un protista

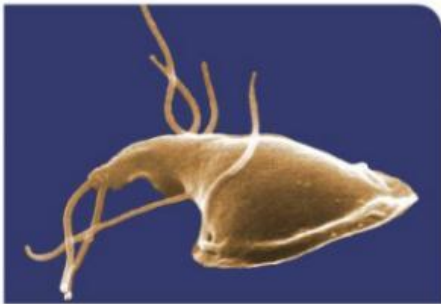

B batteri a spirale o spirilli

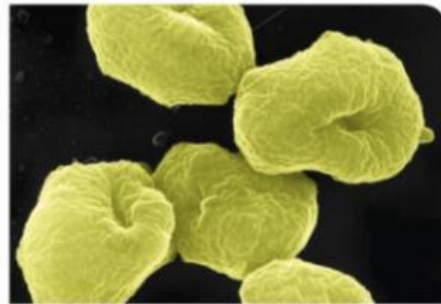

C Euglena, un protista

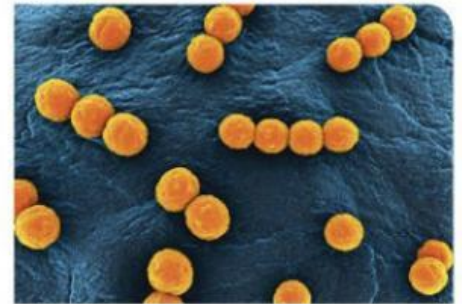

D una colonia di cianobatteri

E Giardia, un protista

F Sulfolobus, un archibatterio

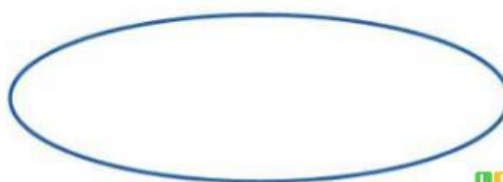

G batteri a sfera o cocci

procarioti

eucarioti

RICORDA

Gli organismi procarioti comprendono due domini: i batteri e gli archibatteri.
