It's great fun to browse through antique cameras, watches, pottery and paintings that date back 300 years. When tired from exploring the market, visitors can drop into the nearby food courts to **savour** an Indian curry, Italian pizza or sandwiches from Europe. Farming and Fishing in Britain

Before British farmers decide what to plant or what animals to keep, they must think about the weather, the kind of land whether it is flat or hilly, **{{D}}**. Although Britain is mild, the weather does differ from one part of the country to another; the east, for example, is drier and the west is wetter. **{{A}}** Because of this, there are many farms where you can pick your own fruit and vegetables. This is often much cheaper than buying from a supermarket. **{{B}}** However, overfishing and pollution have made the work of fishermen more difficult. As fish become scarcer, fishermen must think about both making money now and securing their families' future. Although there are still many types of fish in British waters, in many seaside towns, tourism now brings in more income than fishing. As a result, many fishermen are trying to adapt to these changes **{{C}}**.
