READING TEST

3RD GRADE 1ST TRIMESTER

Student's name: _____ Date: _____

1 Read and circle *T* (true) or *F* (false).

Did you know that art is very good for you? First of all, art can help children understand math and science better. This is because you make shapes in art and you have to think carefully before you draw. Art is also good for your brain because you use all of your senses when you create something. When you express yourself with art, people will really understand you. This means you can make friends with people from all over the world, even if you don't speak the same language. You can also relax when creating art because it will help you forget about your problems. Some people say that this can help you live longer, too!

a Art is better than math and science. T / F

b You use all of your senses when you create art. T / F

c Art helps you to express yourself. T / F

d Only people who speak the same language understand art. T / F

LIVEWORKSHEETS

READING TEST

(2) Read the text. Then, correct the sentences.

Traveling is exciting! You can meet new people, see new places, and taste new food. Traveling is also very good for your health. First of all, when you travel, you forget your problems and you can relax. Learning a new language is another good thing about traveling because you sometimes need to communicate with people who don't speak your language. Another good thing about traveling is that you learn many new things. You learn about different cultures and history. Families also become closer when they travel together because they spend a lot of time together. Best of all, traveling is a great adventure and helps you understand the world around you a little better.

a You meet new people and new food when you travel.
You meet new people and taste new food when you travel.

b You don't learn a language because people don't speak your language.
_____ people don't speak your language.

c One bad thing about traveling is you learn many new things.
_____ is you learn many new things.

d You learn about different families.
You learn about different _____.

e Families become closer because they travel.
Families become closer because they _____.

LIVEWORKSHEETS

READING TEST

3 Read the text. Then match to make sentences.

Weird Sports

First, there was ice hockey and field hockey and then there was underwater hockey! In underwater hockey, two teams try to push a puck under the water with a stick. The first championship was in 1980.

There is also a sport called underwater soccer. Players wear snorkels and have to push a heavy ball to the other side of the pool.

We usually play volleyball with our hands, but not in Asia. Sepak takraw is like volleyball, but you play it with your feet, knees, and chest! If your hands touch the ball, you lose a point.

Dog surfing is another weird sport. If the surfer or dog fall off the surfboard, they lose. This sport started in 1920, in the United States.

a Underwater hockey has	in underwater soccer.
b The first underwater hockey championship	your feet, knees, and chest.
c Players wear snorkels	two teams.
d You play Sepak takraw with	in the United States.
e Dog surfing started	was in 1980.
