**From questions 31-36, choose the best answer (A, B, or C).**

## The Isle of Muck

*Jim Richardson visits the Scottish island of Muck.*

Lawrence MacEwen bends down on his Scottish island, the Isle of Muck. I do the same. A strong Atlantic wind threatens to lift us up and throw us like October leaves over the steep cliff at our feet and into the sea 120 metres below. Then MacEwen's sheepdog, Tie, slowly comes closer, and his fair-haired, bearded owner gently strokes him with calm hands. Even though the wind is roaring loudly, it does not make this man feel uncomfortable on his island, where he clearly feels – and is – completely at home.

MacEwen is showing me the area around his home. Pointing to the north, he shouts, "That island is Eigg. The one west of it is the Isle of Rum. It gets twice as much rain as we do." I watch thick clouds pouring rain over its large mountains. "Just beyond Rum is the island of Soay." "I have sheep to move," MacEwen suddenly says when the rain begins moving toward us. We start walking down the slopes. As we walk, he tells me more about the island: volcanic Muck is 3 km long and half as wide; its sheep eat large quantities of grass; and the MacEwen family have been living here for 3,000 years.

Moving the sheep interrupts the conversation. Tie, the sheepdog, is running around a group of sheep – and not doing the job very well. "Away to me, Tie. Away to me," meaning that the dog should circle to the right. But he doesn't; instead he runs straight through the middle of the flock, which creates confusion. "Tie." MacEwen's voice shows clear disappointment. "That will never do." The dog looks embarrassed.

The Isle of Muck is mainly run by the MacEwen family. Lawrence manages the farm with his wife Jenny; their son Colin, who has recently married, takes care of the island cottages; and their daughter Mary manages the island hotel, Port Mor, together with her husband Toby. Mary and Toby enjoy the fact that their two sons can walk freely around the island and sail small boats on summer days. "They go out of the house and only come back when they feel hungry." But life on an island also has disadvantages. For example, electricity is available only some of the time. On my first evening I wait nervously for the lights to come on. The next morning I see Mary preparing breakfast using a torch. But I get used to it – along with the fact that there is no mobile phone signal. "There is reception on the hill," Mary tells me. "Most visitors try it for a few days, then simply put the phone away in the drawer." So I do the same.

Everything on Muck feels pleasantly unexpected. The boat arriving today brings the mail – and three musicians, who jump off carrying instruments. Their performance in the island's tearoom is extremely popular, with the islanders tapping their boots in time with the music. Later that night, while we sit beside a bright fire as the rain falls outside, Lawrence MacEwen tells me how he met his wife Jenny. "Her father saw a small farm on the island of Soay advertised in a newspaper and bought it without even visiting it. He had never been to Scotland. Jenny was sent there to manage it." I ask if Jenny knew anything about running a farm. "She had good typing skills."

I fall asleep while rain is falling and wake up to more rain. But I eat extremely well, because almost all the food comes from the tiny island. Mary sends me down to fisherman Sandy Mathers to collect fresh fish. I carry it back through the village and deliver it to Mary at the kitchen door. By 7 pm our fish is served on the table, delicious beyond description. Also beyond description: my ferry trip the next morning to the next island. During the previous two months, many of the scheduled ferries had been cancelled because of rough seas. If my ferry had not arrived, I would have been stuck on Muck for two more days. **Which**, now that I think about it – with or without phone reception – was secretly what I wanted.
