

To calculate the area and *Perimeter* of rectangles and squares.

1) Count the squares and calculate the area and the perimeter of the following shapes.

a) 

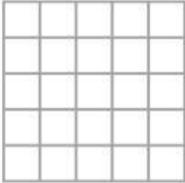

Area =  cm<sup>2</sup>

Perimeter =  cm

b)  

Area =  cm<sup>2</sup>

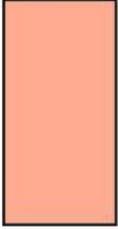

Perimeter =  cm

c) 

Area =  cm<sup>2</sup>      Perimeter =  cm

2) Calculate the area and the perimeter of the following shapes.

a)  Area =       Perimeter =

b)  Area =       Perimeter =

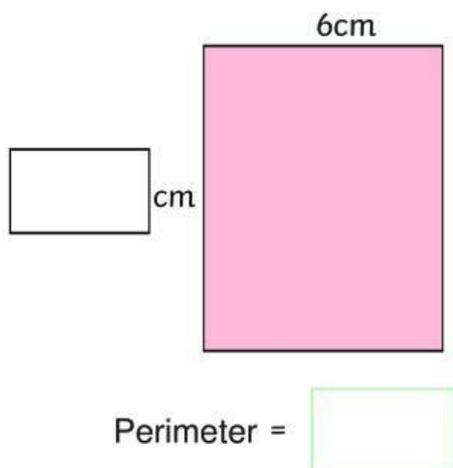

c)  Area =

Perimeter =

3) This shape has an area of  $48\text{cm}^2$ .

Find the missing measurement

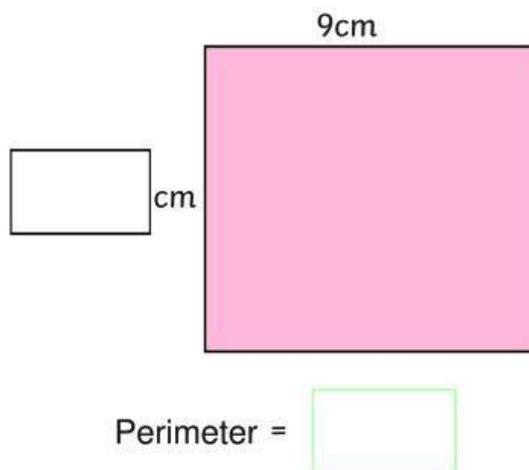

Find the area.

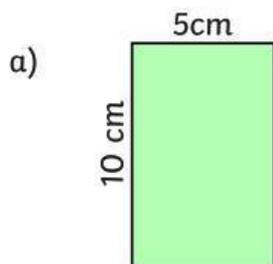

4) This shape has an area of  $81\text{cm}^2$ .

Find the missing measurement

Find the area.

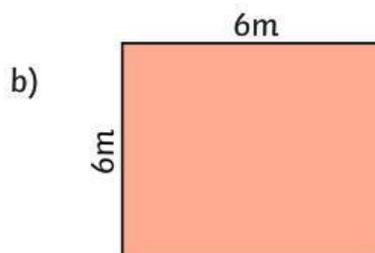

5) Calculate the area and the perimeter of the following shapes.

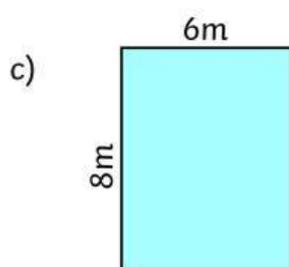

Area =

Perimeter =

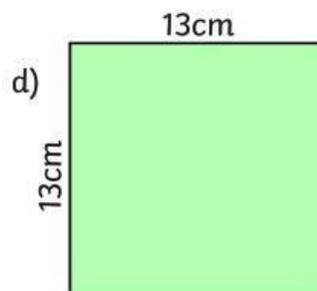

Area =

Perimeter =

Area =

Perimeter =
