Using Old Android Devices for New Purposes

Questions:

1. What can I turn my old mobile phone into?
2. What do I need in order to have streaming images on my device?
3. How do I make sure there is enough light?
4. How can I protect my surveillance camera when I use it to follow people outside my house ?
5. The batteries of phones over 2 years old hold less charge and die sooner. What do I do for power?
6. Music takes up a lot of storage space. Can the device store all my favorite music?
7. How do I make sure the quality of the music's sound is good?
8. What is special about the app called Dormi which is used to monitor young children's sleep ?

Answers:

a. For sharp pictures, don't point the camera into the sun, the light should come from behind.
b. It can become a GPS, a web-cam (מצלמה), a music player or a baby/ pet/ nanny monitor.
c. Go to "factory settings", wipe the memory clean, you will have enough space for your music.
d. It has both video and two-way audio that enable you to talk to your crying child from afar.
e. Plugging into a wireless connection will make your listening experience a good one.
f. You won't be able to see pictures of what is happening in real time without a Wi-Fi connection.
g. Put it inside, against a window, facing outwards so that it is protected from the rain and snow.
h. Choose a location near a power outlet to save the phone's battery supply for long-term use.
