

MINIMAL PAIRS

Listen to the audio for each drawing and write the word below it. Match the two drawings that form a minimal pair, then identify whether they are differentiated by a consonant or a vowel sound.

 Minimal pairs are pairs of words that differ by only one specific sound (phoneme), which changes the meaning of the word.

What type of sound causes the difference in meaning?

Consonant

Vocal

What type of sound causes the difference in meaning?

Consonant
