My girlfriend gets .....depressed

She ..... leaves the house

She doesn't even get dressed

My girlfriend .....leaves a mess

She says she's gonna ....., but she always forgets

And my girlfriend is there when I get home

Watching..... on TV

Or talking on the .....

Sometimes I wanna leave, but I've got ..... to go

But hey nobody's ....., no one wants to be alone

My girlfriend is so unimpressed

By ..... I say

You can see it in her .....

I don't say much, I just hope and pray

There's been some big .....

And buy her ..... just in case

And I don't ..... it when she goes out with her friends

They drop her off drunk

And I take her up to bed

She says, 'I'm sorry, ' and I ..... her on the head

And everything is fine

Until the..... comes again

I remember when we were in ..... school

I took her to the dance

We snuck out to the bleachers

And I thought that I might ..... a chance

But it never does any long-term good

To go thinking about the .....

God-damn, this wandering mind of mine

That can't be happy with what it has

But I'm not mad

And ..... we still laugh

And when she's just getting up

And the ..... hits her right

She doesn't even look half bad
