

Read the following essay then match the idea with the correct paragraph

1

Many students have mobile phones today. Some people think students should use mobile phones in school, but others think this is not a good idea.

2

On the one hand, mobile phones have some advantages. Students can search for information quickly. They can use a dictionary to learn new words. They can also contact their parents if there is a problem.

3

On the other hand, mobile phones also have disadvantages. Students may play games during lessons. They may send messages to friends. They may also stop paying attention to the teacher.

4

In my opinion, students should use mobile phones only for learning and with the teacher's permission.
