Warm-Up & Reading Passage

Warm-Up

The UAE plants thousands of mangrove trees every year to protect the coastline, support wildlife, and improve the environment.

Reading Passage

Protecting Mangrove Forests in the UAE

Mangrove trees are very important in the United Arab Emirates. These trees grow along the coast and help protect the shoreline from erosion.

Mangroves also provide homes for fish, birds and other wildlife. Because they support marine life and protect the environment, mangrove forests are carefully protected in the UAE.
