What To Wear

Advice on all things fashion by Linda

As you know, I love fashion and clothing. I wanted to find out what my readers like to wear. Here are some of the comments I received about the clothes you wear in your daily lives. Who has the same ideas as you?

Martin

I'm a teacher. I want to look tidy at work, so I avoid sports clothes. On special days, when there is an event at school, I sometimes dress in formal clothes, but usually it's just trousers and a shirt with a jumper, not a jacket and tie – you know, comfortable clothes. I don't want my students to worry or feel nervous when talking to me, so I think that's better.

Beth

I work as a journalist for a fashion magazine. I love clothes and it's important for me to wear things that are fun and cool. It can be expensive to buy new clothes, so I often borrow things from my friends and share what I have. That helps me to save money while also looking good.

Sam

As a police officer, I don't really worry about clothes. Some people wouldn't like to wear a uniform every day, but I like it because I don't have to decide what to wear. I only have a few other items of clothing for going out or going to the gym, and these stay in good condition.

Mariam

I work in a gym, so I always wear clothes for exercising in. It's great for me, because these clothes are also popular with other people my age. I feel I can leave the gym and still look good while I'm out with my friends. I don't like the idea of wearing a suit every day. I love being able to move easily.

Priya

I'm a lawyer and work in a large office. It's very important for me to look professional, so I wear suits. All my colleagues also wear formal clothing and no one ever wears jeans to work. When I'm not working, I prefer to wear gym clothes because I love to exercise.
