## Grandmother. Analysis and Interpretation. Teaching HOTS of Distinguishing Different Perspectives.

Different people view things differently. That is, they have different perspectives.

**Distinguishing Different Perspectives** means to have the ability to identify different points of view.

1. Complete the following sentences then share your answer with your classmates.

How is your perspective similar to or different from theirs?

a) My grandmother is someone who

Distinguishing Different Perspectives mean identifying different opinions and points of view. (זיהוי דעות ונקודות מבט שונות.)

Even what two people are looking at exactly the same thing, they might see different things.

**For example**, a baker who bakes a beautiful cake will be proud of his work of art, but kids who see the cake will see something that they can eat.

One woman can see a dress and think that it is beautiful, while another woman can see the same dress and think it is ugly.

It is all a question of perspective.

## Important vocabulary for Distinguishing Different Perspectives.

1. Differences - הבדלים
2. Different - שונה
3. Distinguish - להבחין
4. Identify - לזהות
5. (an) opinion - דעה
6. (a) perspective – נקודת מבט
7. (a) point of view – נקודת מבט

4. Why would it be useful to distinguish different perspectives in the following situations?

a) When reading a book or watching a movie.
