HAPPY TO BE ALIVE

PART ONE

On June 23, 2018, 12 boys, from the ages of 11 to 16, set off on their bikes after soccer practice. Together with their coach[1], Ake, they decided to go for a short hike in the Tham Luang Cave[2] in northern Thailand. This "short hike" lasted 18 days and it was one that they would remember for the rest of their lives.
