III. Read the text and choose the correct answers.

Australia is the sixth-largest country in the world. It is **unique** because it's the only country that covers a whole continent. Because the land is so big, the weather is different in different parts. In the center, the land is very dry. This means it is very dry and dusty, like the Great Victoria Desert. However, not all of Australia is dry. In the north, there are green forests. On the coast, you can see the deep blue ocean. If you are lucky, you might **encounter** amazing animals in the wild. You could see a kangaroo jumping or a koala eating leaves. You might even see a dangerous snake! People have lived in Australia for a long time. The first people arrived 50,000 years ago. Today, people from all over the world visit Australia to see its **stunning** views, like the red rock of Uluru and the colorful Great Barrier Reef. In my opinion, Australia is the most exciting country in the world because you can swim in the ocean and walk in the desert on the same day.

1. When did the first people arrive?
A. 10 years ago
B. 50,000 years ago
C. 25 million years ago

2. What is the text mainly about?
