B. CLASSWORK (15 questions)

I. Read the sentences below. In each sentence, there is one word or phrase in *italics* that is incorrect based on the context. Replace it with the correct vocabulary word from page 1.

1. The engineer tested a new ***generator*** of the wind-powered drone before showing it to investors.
   ⇒ _____
2. The electricity from the dam is produced by a large ***propeller*** connected to the power station.
   ⇒ _____
3. The small travel fan is very convenient because it is completely ***hydroelectric*** and easy to carry in a bag.
   ⇒ _____
4. Many students decided to ***pull out*** in the robotics club because they were excited to join the project.
   ⇒ _____
5. After years of hard work in the company, she managed to ***drag*** her way up to a senior management position.
   ⇒ _____

II. Match the words/phrases with the correct definitions.

1. propeller	1-	a. relating to the production of electricity using the power of moving water
2. disability	2-	b. a physical or mental condition that limits a person's ability to do certain activities
3. hydroelectric	3-	c. a device with spinning blades that moves an aircraft or boat through air or water
4. pull out	4-	d. expecting good things to happen in the future
5. optimistic	5-	e. to move a vehicle away from the side of the road or withdraw from something

III. Read the text and answer the questions. Choose the correct answer A, B or C.

A Young Engineer's Project

Liam was a young engineering student who was very determined to create useful technology for his community. During his final year at university, he worked on a project to design a small hydroelectric system that could produce electricity for remote villages.

First, Liam built a prototype of the machine to test his idea. The system used moving water to turn a turbine, which then powered a generator to produce electricity. Because many villages are located in mountainous areas, Liam also designed some portable parts so the equipment could be carried easily.

Liam was a very organized and optimistic person. He encouraged other students to get involved in the project and help improve the design. At first, some people were doubtful about the idea, but Liam continued working hard.

After months of testing, the system worked successfully. The story later made the news, and many people were impressed by the project. Liam said he felt over the moon when he heard that several villages wanted to use his technology.

Statements:

1. Liam designed a hydroelectric system to provide electricity for remote villages. → _____
2. The machine produces electricity by using a propeller connected directly to the generator. → _____
3. Some parts of the system were designed to be portable so they could be moved easily. → _____
4. Liam refused to let other students join the project. → _____
5. The project later became well known and appeared in the news. → _____

C. HOMEWORK

VOCABULARY & GRAMMAR (15 questions)

I. Con học thuộc nghĩa của từ, chỉnh phát âm theo từ điển và chép mỗi từ ở phần II. Cambridge Vocabulary (trang 1) 1 dòng vào vở ghi.

II. Choose the correct answers.

1. Before producing the final product, engineers usually test a _____ to check if the design works well.
   A. generator B. turbine C. prototype D. propeller
2. Electricity in many hydroelectric power stations is produced when water turns a _____ connected to a generator.
   A. prototype B. turbine C. disability D. propeller
3. She is very _____ and keeps all her work and schedules carefully planned.
   A. sociable B. hostile C. organized D. optimistic
4. The small speaker is light and _____, so you can easily carry it in your backpack.
   A. portable B. decisive C. hydroelectric D. hostile
5. After the team won the national competition, their success quickly _____ and many newspapers reported it.
   A. pulled out B. dragged something to C. got involved in D. made the news

III. Read the sentences. Replace the underlined phrases with ONE exact vocabulary word from page 1.

1. Electricity in many dams is produced by a large machine with blades that turns when water flows through it.
   ⇒ _____
2. The airplane moved forward because of the spinning blades that push it through the air.
   ⇒ _____
3. After the accident, he learned to live confidently with a physical condition that limits some of his abilities.
   ⇒ _____
4. Although she achieved great success, she remained not showing off her achievements.
   ⇒ _____
5. He quickly chose the best solution because he was able to make decisions quickly and confidently.
   ⇒ _____

IV. Rearrange the words/phrases to make complete sentences.

1. A generator / electricity / produces / a turbine / when / spins.
   → _____
2. Engineers / test / usually / building / before / a prototype / product. / the
   → _____
3. The plane / forward / spinning propeller / moves / the / fast / by
   → _____
4. optimistic / She / remained / difficulties. / many / despite
   → _____
5. small / This / device / portable / easy / and / is / carry. / to
   → _____
