

# Rational Numbers Venn Diagram Activity

## Directions

Place each number in the correct region of the Venn diagram. Write each number in the MOST specific set where it belongs.

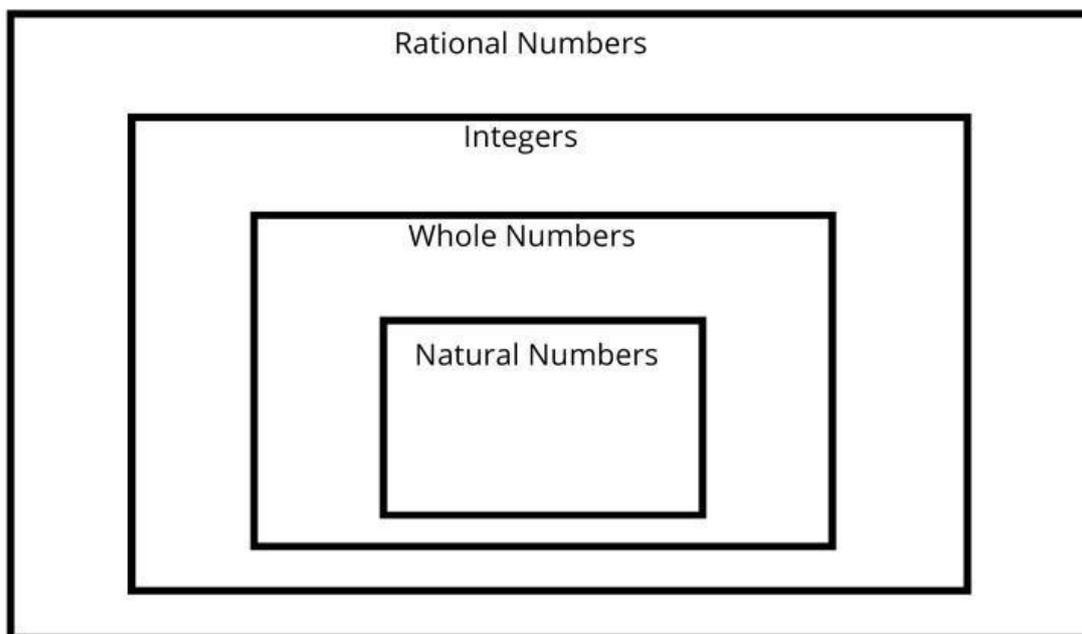

### Numbers to Classify

8, 0, -5,  $\frac{3}{4}$ , -2.25,  $\sqrt{49}$ ,  $-\frac{9}{3}$ , 0.6, 1, -0.333...,  $\sqrt{36}$ , -1

### Notes

- Simplify before classifying
- Repeating and terminating decimals are rational
- Square roots can be rational if they simplify to whole numbers

### Venn Diagram

### Justify Your Thinking

Choose at least THREE numbers and explain why they belong in their set.
