

PART 1: Read the following passage and choose the correct answer (A, B, C, or D) for each question.

Last year, our school formed a Green Volunteer Club. Its main aim is to improve the local environment and encourage students to adopt a greener lifestyle. Every weekend, the club members organise clean-up activities in the central park. They pick up rubbish, empty bottles, and plastic bags. They also plant more trees and water the flowers. In addition, the club has a donation team. This team collects used items like clothes, picture books, and unused notebooks. At the end of each month, they take these donations to the local community centre. Joining the club has helped students gain essential life skills and find a sense of purpose. They feel very happy and proud when they see the park spotlessly clean.

PART 2: Read the passage about family life and decide whether the following statements are True (T) or False (F). In many families, doing housework is considered the responsibility of mothers. However, studies show that sharing household chores brings a lot of benefits to children. First, kids who do housework develop important life skills that they will need for the rest of their lives. For example, doing the laundry or cooking helps them when they start their own families. Second, sharing housework teaches young people to take responsibility. They learn to finish their tasks even if they do not enjoy them. Finally, doing chores together helps strengthen family bonds and creates special moments between parents and children.

Question 6: Studies show that doing housework is not good for children. [True / False]

Question 7: Doing chores helps children learn important life skills for their future. [True / False]

Question 8: Cooking and doing the laundry are mentioned as examples of life skills. [True / False]

Question 9: Children only learn to take responsibility if they enjoy the tasks. [True / False]
