

LO: What causes seasons to change?

1) Compare the poles:

North Pole	South Pole
When it is summer...	It is _____
When it is winter...	It is _____

Why are they different?

2) What if Earth was not tilted?

- We would still have seasons
- There would be no seasons
- The Sun would disappear

Explain your thinking:

3) UAE Connection:

Ahmed notices:

- The Sun is very high
- Days are longer

Which season is it? Why?

4). Fatima sees the Sun low in the sky and the day ends early.
