

Lions

These are lions. They are from cats' family. They live in grassland and in the jungle. Lions live for twelve years. They are big and strong. Lions are

yellow and brown. They have got sharp teeth and big paws. Their claws are sharp. Some lions have got a big mane. Lions run very fast. They can climb a tree. Lions hunt other animals – zebras, small elephants, giraffes, antelopes. They hunt at night. They like swimming.

Animals

Do you know that the kangaroo can't walk at all. He can run forty miles an hour. This animal is very good at jumping.

It can jump twenty feet at one time. A big kangaroo is five feet tall, but it can jump over the car.

The camel can live without water for one week. It can walk over two hundred miles in the desert without water. It can do this because it has three stomachs that hold water. And a hump on his back holds fat, so camel can live without food for a long time, too.

The chimpanzee is a very clever animal. It is good at learning languages. It can hunt small animals. The chimpanzee can open nuts.
