

## The Eco-Warrior's Dilemma

Environmentally conscious citizens often wonder about their impact. If we (1)\_\_\_\_\_ more trees today, the air quality in our city will improve significantly in the next decade. However, many people are hesitant to change their habits. One activist said: "If I (2)\_\_\_\_\_ the president of the country, I would pass stricter laws against industrial pollution immediately."

Unfortunately, changing the law is a slow process. If the government (3)\_\_\_\_\_ not act soon, the damage to our local rivers will be irreversible. On a personal level, a student commented: "If I lived closer to my school, I (4)\_\_\_\_\_ my bike every day, but it's just too far."

We must decide now. If we continue to ignore the experts, we (5)\_\_\_\_\_ a very difficult future.

## The Future of Connectivity

Technological evolution is changing how we interact with the world. Some experts suggest that if everyone (1)\_\_\_\_\_ access to high-speed internet, global poverty levels would drop by 20%. This is a dream for many, but if the current trend (2)\_\_\_\_\_, we will see a fully connected world by 2040.

Social media also plays a role in our behavior. If people (3)\_\_\_\_\_ more time talking face-to-face, they wouldn't feel so lonely. However, digital tools are here to stay. If a company (4)\_\_\_\_\_ not adapt to the digital era, it will definitely lose its competitive edge very soon.

Ultimately, the choice is ours. If you (5)\_\_\_\_\_ more careful with your data today, you will avoid many security problems in the future. If I (6)\_\_\_\_\_ you, I would start reviewing my privacy settings right now.
