

Globalization		"Music is the universal language of mankind"
Diversity of styles		"Different rhythms tell different stories from around the world"
Traditions		"Where words fail, music speaks"
Universal language		"Every culture has a sound that represents its identity"
Personal identity		"We share the same beat, even if we speak different languages"
Emotional expression		"Music travels across borders and connects people"
Unity		"Songs reflect the traditions of the places where they are created"
Cultural identity		"Technology allows music to reach every corner of the world"
Learning other cultures		"Music shows who we are and where we come from"
Technology		"Listening to global music helps us understand other cultures"
