Artificial Intelligence in Daily Life 🤖

Read the short text and answer the questions below.

Artificial Intelligence (AI) is not just in science fiction movies. We use it every day! For example, when you watch streaming services, AI learns what movies you like and recommends new ones. When you drive, GPS apps use AI to look at traffic and find the fastest route. Your smartphone also uses AI to recognize your face and unlock the screen. AI helps make our daily tasks easier and faster.
