

Loving myself

Read the text about Tom and then choose true or false.

Sometimes, when I don't get a good grade in a test, I feel really terrible and I think I'm a bad student. But my friends always tell me that it's OK not to get good grades all the times, and that this doesn't mean we're bad students. Sometimes we can get nervous and we forget things, this happens to me when we have very difficult exams, especially math exams! They're so difficult. My friends make me feel better when I'm sad about my grades.
