

1. Drag and drop.

A mountain

Grass

A river

A tractor

Ground

Leaves

The green parts of a plant or tree. They grow on branches.

A big farm machine. Farmers use it to work in the field.

A long area of water. It moves and flows to the sea.

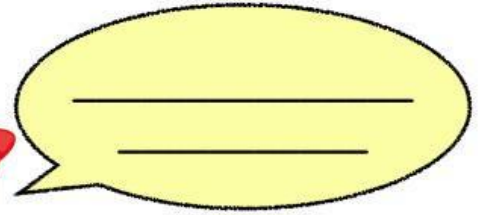

A green plant. It grows on the ground and animals eat it.

The surface of the earth that we walk on

A very high area of land with steep sides. It is higher and bigger than a hill, and people often climb it.

2. Look, read and write.

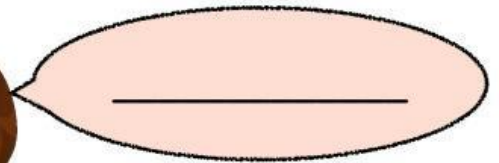

What is she doing?

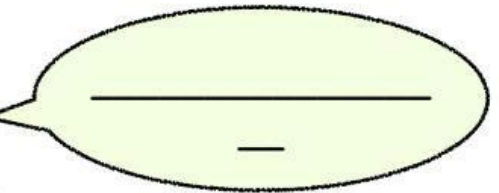

Yes, she is.

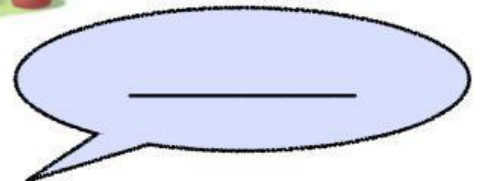

Are the ducks swimming in the pond?

What are you doing?

Are you playing?

3. Write about a day at the farm.

Hi, my name's John. I have a day at the farm with my family. The farm is big and beautiful. In the morning, I feed the chickens and water plants. In the afternoon, I play with a small dog and walk around the farm. I see many trees and flowers. I like the farm because it is quiet and clean. I feel happy there. How about your day at the farm? What animals or things can you see? What do you do? Do you like the farm? Why?
