## Passage

Preparing for the PSR Examination is an important (1) \_\_\_\_\_ for every student. The PSR tests pupils on several core (2) \_\_\_\_\_ such as English, Mathematics, Science and Bahasa Melayu. To do well, students must begin their (3) \_\_\_\_\_ early and follow a proper study (4) \_\_\_\_\_.

Regular (5) \_\_\_\_\_ helps students remember what they have learned and allows them to (6) \_\_\_\_\_ their mistakes. Students should also try to fully (7) \_\_\_\_\_ the topics instead of memorising answers. Asking (8) \_\_\_\_\_ in class and completing extra exercises can help to build important examination (9) \_\_\_\_\_.

Teachers play a big role by giving guidance, while parents provide (10) \_\_\_\_\_ at home. Students should manage their time well so they can avoid unnecessary (11) \_\_\_\_\_. It is also important to eat (12) \_\_\_\_\_ food and get enough (13) \_\_\_\_\_ every day.

Good preparation helps students stay calm and (14) \_\_\_\_\_ during the examination. With consistent (15) \_\_\_\_\_ and positive thinking, students will gain more (16) \_\_\_\_\_ in themselves. This confidence increases their chance of (17) \_\_\_\_\_ in the PSR.

In the end, the PSR is not just about passing an exam but also about preparing for the (18) \_\_\_\_\_. Students who (19) \_\_\_\_\_ themselves well will continue to (20) \_\_\_\_\_ academically in the years ahead.
