Eating a healthy diet is very important for everyone. When we eat healthy food, our bodies feel stronger, and we have more energy. A healthy diet means eating the right number of different foods every day.

To have a healthy diet, we should eat fruit and vegetables often. They give us vitamins, minerals, and fibre, which help our bodies work well. Try to eat many different colours of fruit and vegetables, like apples, carrots, bananas and broccoli. This helps us get many good nutrients.

It is also important to eat some foods with protein, like chicken, fish, eggs, beans and nuts. Protein helps us build strong muscles and bones. Don't forget to eat whole grains, such as brown rice, whole wheat bread and oats. Whole grains give us energy and keep us feeling full.

We should drink enough water every day, about six to eight glasses. Water helps our

bodies stay healthy and keeps our skin looking good.

Try not to eat too much sugar, salt or fat. These foods can be bad for our health if we eat them every day. Although fast food, chips and sweets taste good, they are not healthy if eaten too often.

Eating well is not difficult. Just remember to choose healthy foods, drink water and eat a variety of fruit and vegetables. If we eat healthy food, we will feel better and be happier.
