

WORKSHEET

Name: _____ Date: _____

1. READING COMPREHENSION

Read the text about a paramedic and answer TRUE or FALSE.

My name is Daniel and I am a paramedic. I work in emergency medical services in a busy city. My shift usually starts at 7 a.m., but every day is different. When the alarm sounds, my partner and I get to the ambulance quickly and check the information from dispatch. We never know what we will find.

Last Tuesday was a typical day. In the morning, we treated an elderly man with chest pain. I was checking his vital signs while my partner prepared the oxygen. He was conscious and talking, so I reassured him and explained that we were going to the hospital. Later, we had a call about a car accident. When we arrived, a young woman was sitting on the ground and crying. She had a cut on her forehead and pain in her leg. We cleaned the wound, immobilized her leg, and gave her some medication for the pain.

In the afternoon, we didn't have many calls, so we cleaned the equipment and restocked the ambulance. Around 6 p.m., we were called to a house for a man who wasn't breathing. We started CPR immediately. After a few minutes, he regained consciousness, and we transported him to the hospital.

Being a paramedic is stressful, but it is also very rewarding. You need to stay calm, think fast, and work well in a team. Every day, you help people in their worst moments, and that makes me proud of my job.

1. Daniel usually starts his shift at 7 p.m. T / F
2. He and his partner always know what they will find when they arrive. T / F
3. The elderly man had chest pain and was unconscious. T / F
4. The young woman had a cut on her arm. T / F
5. In the afternoon, they cleaned the equipment and restocked the ambulance. T / F
6. The man at the house wasn't breathing. T / F
7. They didn't do CPR because he was already conscious. T / F
8. Daniel thinks his job is easy and relaxing. T / F
