

$3 + 2 = 5$ birds in all

Solve

Add to solve each problem. Use the number line to help.

- 1 Sam has 7 .
Ana has 2 .
How many  in all?

$$7 + 2 = \underline{9} \text{ }$$

- 2 There are 4  in a bowl.
There are 2  in a bag.
How many  in all?

$$4 + 2 = \underline{\quad} \text{ }$$

- 3 Dan has 6 .
Lily has 8 .
How many  are there?

$$6 + 8 = \underline{\quad} \text{ }$$

- 4 I see 6 dogs and 4 cats.
How many pets do I see?

$$6 + 4 = \underline{\quad} \text{ pets}$$
