

**Directions:** Read the story carefully. Then arrange the pictures or sentences in correct order from beginning to end.

## HANSEL AND GRETEL

Hansel and Gretel were two children who lived with their father and stepmother near a forest. They were a poor family, so sometimes they did not have enough food.

One day, the stepmother told their father to leave the children in the forest. The father agreed sadly. Hansel and Gretel were taken into the forest. Hansel dropped small stones on the ground so they could find their way home.

At night, they followed the stones and returned safely. But the next time, Hansel dropped breadcrumbs. Birds ate the breadcrumbs, and the children got lost in the forest.

They walked and walked until they found a small house made of sweets. An old woman lived there, but she was a witch. She wanted to keep the children.

Gretel was clever. She pushed the witch into the oven, and the children escaped. They took some treasure and safely went back home to their father.
