Dear Henry,

I hope this letter finds you well and that things are running smoothly at your office.

I wanted to give you a more detailed update following my recent operation, as I know you've been extremely concerned. I am absolutely (17) _____ to tell you that my recovery is making remarkably good progress. I won't lie, I spent a few very uncomfortable days immediately after the surgery, but since then, the pain has (18) _____ considerably, and I was finally discharged yesterday afternoon. It feels wonderful to be back in my own bed!

The doctors were very pleased with the results, and the hospital staff were truly wonderful—they really took excellent care of me. I have a follow-up appointment next week, but for now, I just need rest and light activity.

Now, about you. I heard from Mum that you were seriously considering (19) _____ an extended leave from your project to come and help me. Henry, please, don't bother with that idea. I sincerely (20) _____ your kindness and loyalty, but there is no need for you to (21) _____ your important commitments. You must focus entirely on your work; it's a crucial time for your department. I'm safely home, and Mum is here to ensure I don't lift a (22) _____.

Looking forward to catching up properly once I'm back on my feet and can actually go out for a coffee.

Warmest wishes,

Annet

The Quick Fix: Understanding Fast Food

Is Convenience Worth the Cost?

Fast food holds an undeniable place in modern life, providing a solution that is both quick, cheap, and immediately gratifying. For millions of people with demanding schedules and minimal time for meal preparation, grabbing a burger, fries, or a quick taco seems like the perfect answer, fitting seamlessly into an incredibly busy lifestyle. However, before relying on these rapid meals too often, it is absolutely essential that we step back and fully

understand the true nutritional impact they have on our long-term health and well-being. The ease of access often masks the significant hidden costs to our bodies.

What's Really in Your Meal?

Fast food meals are meticulously engineered to taste appealing, but they typically feature a very high concentration of calories, saturated fats, sodium, and refined carbohydrates, while critically lacking in essential nutrients like vitamins, minerals, and dietary fiber. This specific chemical composition delivers a rapid energy **boost** that is quickly metabolized, which unfortunately often leads to an equally sudden crash in energy levels shortly afterward. Regular, consistent consumption of such foods can significantly contribute to serious health concerns.

Simple Steps for Smarter Choices

You certainly don't have to eliminate fast food entirely from your life; the goal is to make smart, informed decisions when you do indulge:

1. **Read the Labels:** Always check the displayed calorie and sodium counts where available.
2. **Opt for Water:** Skip all sugary sodas and thick milkshakes.
3. **Choose Lean Options:** Select grilled chicken or fish whenever possible, instead of heavily fried items.
4. **Add Greens:** Request extra lettuce, tomato, or switch out fries for a side salad.

23. Fast food is often seen as the ideal solution because it is quick, cheap, and fits perfectly into a busy lifestyle.

24. The nutritional composition of fast food meals critically lacks essential vitamins, minerals, and dietary fiber.

25. The main goal when discussing fast food is to eliminate it entirely from your diet.

26. The energy from fast food is metabolized slowly, helping to maintain stable energy levels for a long period.

27. According to the passage, which of the following is **NOT** a common characteristic of fast food meals?

- A. High concentration of calories and sodium.
- B. Featuring a high concentration of saturated fats.
- C. Rich amounts of vitamins and dietary fiber.
- D. Containing refined carbohydrates.

28. Which recommendation is offered in the passage for making a healthier fast food choice?

- A. Request additional sauces and cheese on your order.
- B. Choose a grilled item instead of a fried one.
- C. Always select the thick milkshakes and sugary sodas.
- D. Avoid reading the labels for calorie and sodium counts.
