

UNIT 6: Protect the Planet

1. Warm-up – Match the Animal to its Description

Match the animals with the correct description:

1. Eagle
2. Fox
3. Gorilla
4. Leopard
5. Lizard
6. Panda
7. Penguin
8. Polar bear
9. Rhino
10. Turtle
11. Tortoise

- a. A black and white animal that eats bamboo
- b. A large animal that lives in cold places and eats seals
- c. A bird that flies very high and hunts small animals
- d. A slow reptile with a hard shell that lives on land
- e. A wild cat with spots that lives in Africa and Asia
- f. A small reptile that can climb walls
- g. A clever animal with a bushy tail
- h. A large, strong animal that lives in the jungle
- i. A black and white bird that cannot fly but swims
- j. A very large animal with thick skin and a horn
- k. A reptile with a shell that lives in water and land

2. Vocabulary – Match the Verbs

Match the verbs with their meanings:

1. Cut down
2. Hunt
3. Look after
4. Pollute
5. Protect
6. Recycle
7. Save
8. Throw away

- a. Keep something safe
- b. Take care of something
- c. Kill animals for food or sport
- d. Make the environment dirty
- e. Use something again
- f. Not waste something
- g. Remove trees
- h. Put something in the trash

3. Reading Comprehension

Read the text and complete the sentences with a word or phrase.

Many animals around the world are in danger. For example, the panda and the polar bear are losing their natural habitats. People cut down forests and pollute the environment, which makes it difficult for animals to survive.

Some animals, like rhinos and leopards, are also hunted illegally. This is a serious problem.

However, there are solutions. People should protect animals, recycle more, and save natural resources. Governments and individuals should look after the planet and stop throwing away so much plastic.

1. Why are pandas in danger?
2. What happens when people cut down forests?
3. Which animals are hunted?
4. What should people do to help the planet?
5. Mention two actions people shouldn't do.

4. True or False

Write T (true) or F (false). Correct the false sentences.

1. People should pollute the environment.
2. We should recycle plastic.
3. Hunting endangered animals is a good idea.
4. We should look after animals.
5. Throwing away waste helps the planet.

5. Grammar – Complete with SHOULD / SHOULDN'T

Complete the sentences:

1. People protect endangered animals.
2. We throw away plastic in nature.
3. Governments stop illegal hunting.
4. People cut down too many trees.
5. We recycle more materials.
6. People pollute rivers and oceans.

6. Guided Writing

Write 5 sentences using **should** / **shouldn't**:

Example:

- People should protect animals.
- We shouldn't pollute the environment.
