1. Read the text and answer the following questions:

Water is important

Water is very important for everyone. Salama and Saif need water everyday to live. They drink water to stay healthy. They use water to cook food and wash their hands and clothes.

In the morning, Salama and Saif use water to brush their teeth. They turn off the tap when they do not need it. During the day, they use water carefully, so they do not waste it.

In the evening, Salama and Saif take a shower and use less water. They know that using too much water is not good. They help the planet by saving water every day.

Water is important for people, animals, and plants. Everyone should save water and use it wisely.
