II. READING (2 points)

Task 1. Read the text about recycling. Circle the best answer A, B or C.

Recycling is beneficial. First, recycling means less trash, so it saves space in landfills. Second, if we use materials again, we can take fewer resources from the Earth. Third, recycling materials produces less pollution, so it helps to keep our environment clean.

So what can you do? Be sure to recycle everything you can at home and school. Always drop your used aluminum cans and plastic bottles into a recycling bin. Remember to put paper items like newspapers, cereal boxes, and homework pages into the recycling bin, too. Besides, find creative ways to reuse old items before throwing them away.

Here are some fun facts about recycling. Old paper can be recycled around seven times. Glass is one of the best recycled materials. Clear glass can be recycled over and over again. In 2009, the United States recycled around 30% of all its waste and they found ways to recycle around 7 million tons of metals.

1. What is NOT a benefit of recycling?
 - A. It helps to protect the environment.
 - B. It saves the Earth's resources.
 - C. It makes landfills safer places.
