L2.2. EX 5. BÀI TẬP DẠNG THỨC VSTEP (Phần 3)

Nghe đoạn độc thoại và trả lời câu hỏi. 38.mp3

1. What is the purpose of this lecture?
   A. To talk about how insects and spiders are rich in nutrients
   B. To discuss a plant called the Venus Flytrap
   C. To explore the workings of all carnivorous plants
   D. To review the effects of rainfall on plant life

2. Why does the speaker say that flytraps live in nutrient-poor swamplands?
   A. To explain the meaning of the words "Venus Flytrap"
   B. To explain the flytrap's digestive process
   C. To explain why flytraps need to eat bugs
   D. To explain why flytraps live in colonies

3. What is the purpose of the flytrap's trigger hairs?
   A. To inform the plant that food is sitting on the leaves
   B. To begin the digestion process of the flytrap's prey
   C. To absorb nutrients from the flytrap's prey
   D. To protect the flytrap from the rain

4. According to the lecture, what is one thing that the Venus Flytrap gets from bugs that it DOES NOT get from the soil?
   A. Nitrogen
   B. Carbon dioxide
   C. Oxygen
   D. Topsoil

5. According to the speaker, why do flytraps eat bugs?
   A. Because the soil where they grow has way too many nutrients for the plants
   B. Because the soil where they grow does not have enough nutrients
   C. Because the plants do not get enough sun where they grow
   D. Because the traps are not big enough to eat larger animals
