Ciria: I am looking for a place to stay during my next vacation, but I want a quiet place surrounded by nature where I can breathe clean air and eat something fresh. Do you think there is something like this here in Hidalgo?

Billie: I'm completely positive. It is only 30 kilometers from Pachuca. It is the most relaxing place near the city. There you can find trout which are from the lagoon in front of you. You cannot have anything fresher than that and also, there are beautiful cabins where you can rest and forget about the world, everything surrounded by pine trees and local nature. Go there immediately!

Leslie: Hi, I live in a small town and I really want to experience night life with my friends. We are thinking of going to a city but we are not sure because we want a secure place where we can walk from the hotel to the clubs and shops without fear. Help please :(

Billie: Let me think about it. No, I'm joking! That place exists, its name is Pachuca. It is a city where you can walk at midnight and no one will attempt to hurt you. It has hotels all over the city and they are very affordable just in case. Clubs, cafes, sports bars, a soccer stadium or everything that you can think of, it's there so what are you waiting for?

Guillermo: Hey hey hey, It's me Guillermo. Hey, by any chance do you know a place where I can celebrate my golden wedding? You know me, I would like a peaceful town but not too quiet, a little bit cold, maybe a touristic place but not too crowded and of course with a beautiful church to celebrate my wedding mass. Just tell me good news, please.

Billie: 50 years now, wow incredible. I know the right place for you my old friend. This place is a magical town and just for your information it is the first town in Mexico to be named Magical town. It will take me hours to tell you all the amazing places there are, so pay attention carefully because I will tell you about the best place. The farm "Santa Maria Regla" is a magical place full of stories, mysterious corners, natural spaces, memories and a chapel but don't think it's an ordinary chapel, this chapel is baroque style where you can celebrate your wedding, Santa Maria Regla is also a hotel and they have weddings, an all-included service. Go and get married there. You can thank me later. Its name is Huasca de Ocampo, proudly the first magical town in Hidalgo and in Mexico.
