Zoo Animals: Knowledge Check

1. Form and Function 🐾

Animals possess unique physical adaptations that allow them to thrive in their specific environments. **Word bank: tail, fur, beak, scales**

Task: Identify the primary body feature shown for each animal. Then, explain the **purpose** of that feature (how it helps the animal eat, move, or survive).

			
Part: Beak scales **Purpose:** Protect the body Help eat and climb	**Part:** Feathers tail **Purpose:** Protect the body swing	**Part:** tail scales **Purpose:** Protect the body swing	**Part:** Fur Beak **Purpose:** Keep the body warm Hel eat and climb

2. Ask the Expert ?

A zookeeper needs to identify these animals using only physical descriptions. You must **create the questions** for the zookeeper to ask, making sure they match the answers provided.

1. Write a question about a feature she HAS:

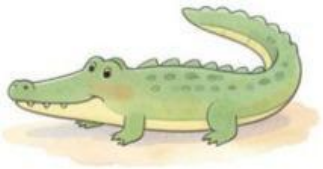

Answer: **Yes, she does.**

2. Write a question about a feature she DOES NOT have:

LIVEWORKSHEETS

Answer: **No, she doesn't.**

3. Write a question about her skin or texture:

Answer: **Yes, she does.**

4. Write a question that compares her to a bird:

Answer: **No, she doesn't.**
