21. A. pollution B. climate C. Environment D. neighborhood
22. A. create B. cause C. do D. make

Answers: 17. ____ 18. ____ 19. ____ 20. ____ 21. ____ 22. ____

IV. Read the following brochure of a run for the environment. Decide whether the statements from 23 to 26 are True or False and choose the correct answer (A, B, C or D) to complete the statements in the questions 27 and 28. (1.5 pts)

The environment is all around us, including the air we breathe, the water we drink, and the land we live on.

It provides the resources we need to survive, but it is also fragile and can be easily damaged. Human activities, such as deforestation, pollution, and overuse of natural resources, have had a negative impact on the environment. For example, cutting down trees leads to habitat loss for many animals and reduces the planet's ability to absorb carbon dioxide. Pollution from factories and vehicles contaminates the air and water, which harms both humans and wildlife. It is important that we take action to protect our environment by using resources more wisely, recycling reducing waste, and conserving energy. Small changes, such as planting trees, using less plastic, and driving less, can make a big difference in creating a healthier planet.

True or False?

23. The environment includes only the land we live on.
24. Deforestation can lead to habitat loss for animals.
25. Pollution from factories and vehicles only affects wildlife, not humans.
26. Recycling and reducing waste can help protect the environment.

Choose the best answers:

27. What does deforestation reduce the planet's ability to do?

A. Absorb carbon dioxide	B. Produce oxygen
C. Grow more trees	D. Clean the air
28. Which of the following is NOT mentioned as a way to protect the environment?

A. Reducing waste	B. Recycling
C. Using more plastic	D. Conserving energy

Answers: 23. _____ 24. _____ 25. _____ 26. _____ 27. _____ 28. _____
