Read the text below about the Eiffel Tower and decide if the statements 7 - 12 are true or false. On your answer sheet, mark: A if it is TRUE B if it is FALSE.

Today, millions of people visit the Eiffel Tower every year. It has three floors, at 57 m, 115 m and 275 m off the ground, and each offers amazing views of the city. The first floor was redesigned at one point, and now has a glass bottom so that visitors can see straight down to the street below. The first and second levels can be reached on foot; however, visitors need to take a lift to reach the top floor. The view from the top floor is popular with visitors at any time of day, but many also choose to visit the tower after the sun goes down so that they can see the lights of Paris below. Although the great height can be scary, regular work is done on the tower to make sure that it stays safe enough for people to visit, and the view from the top makes it well worth it.

7. It is difficult to locate the Eiffel Tower in Paris.

8. The original plan was to take down the Eiffel Tower after twenty years.

9. Although the Eiffel Tower attracted many foreign visitors, the French public disliked it in the beginning.

10. The original design for the first level did not include the glass floor.

11. Only two floors can be accessed without a lift.A: TRUE

12. Visitors can only travel up to the top floor when it is dark.
