Electronic devices have become an essential part of modern life, especially for teenagers. Devices such as smartphones, tablets, and laptops are commonly used for communication, entertainment, and studying. While these gadgets offer many benefits, overuse can lead to negative effects on health and well-being. Spending too much time on electronic devices can cause eye strain, headaches, and sleep disturbances. Moreover, excessive screen time is often linked to a **sedentary** lifestyle, which can contribute to weight gain and other health problems.

Despite these risks, electronic devices are valuable tools when used wisely. For instance, they can help students research information for their homework or attend online classes. Additionally, smartphones and apps can be useful for setting reminders, managing time, and staying organised. However, it's important to set limits on usage. Experts recommend that teens take regular breaks from screens and limit recreational screen time to two hours a day. Maintaining a balance between using electronic devices and other activities, such as playing sports or spending time outdoors, is crucial for overall well-being. By being mindful of their screen time and **incorporating** healthy habits, teenagers can enjoy the benefits of technology without experiencing its downsides.

Question 31. What is the main idea of the passage?

- A. Electronic devices should be banned for teenagers.
- B. Electronic devices are useful but should be used in moderation.
- C. Electronic devices cause serious health problems in teenagers.
- D. Electronic devices are the main source of entertainment for teens.
