Urban development is having a direct impact on the weather in many cities worldwide. It has been noticed that the difference (1) _____temperature is usually greater at night and the phenomenon occurs in both winter and summer. Experts agree that this is due to urban development, when open green spaces are replaced with asphalt roads and tall brick or concrete buildings. These materials retain heat generated by the Sun and release it through the night. In Atlanta, in the US, this has even led to thunderstorms (2)_____ occur in the morning rather than, as is more common, in the afternoon.

Large cities around the world are adopting strategies to combat this issue (3)_____ it is not uncommon to find plants growing on top of roofs or down the walls of large buildings. In Singapore, the government has (4)_____ to transform it into a "city within a garden" and, in 2006, they held an international competition calling for entries to develop a master plan to help bring this about. One outcome was the creation of 18 "Supertrees" – metal constructions resembling very tall trees. Each one is a vertical freestanding garden and is (5) _____ to exotic plants and ferns. They also contain solar panels used to light the trees at night and also containers to collect rainwater, making them truly self-sufficient.

"I have not paid a single electricity bill since the year 197," says Richard Perez with noticeable glee. He can afford to be smug. He lives “off-grid: - unconnected to the power grid and the water, gas and sewerage supplies that most people in the world rely on. He generates his own electricity sources his own water and deals with his own waste disposal – and he prefers it that way. “There are times when the grid **blacks out**," he says. "I really like the security of having my own electricity company."

Perez is not alone. Once the preserve of mavericks, hippies and survivalists, there are now approximately 200,000 off-grid households in the United States of America, a figure that Perez says has been increasingly by a third every year for the past decade. For all of the people who live off-grid,
