### **Green Business Company**

Green Business Company is growing. It has 20 employees and two offices. The company sells eco-friendly products.

Every day, the company receives many invoices and shipments. It also has enough cash to buy new materials. The managers do research to learn about customers. They collect data and write reports.

There is a lot of competition in the market, but the company has many clients. The company wants more capital to open a new office next year.
