1 **Patrick is talking about his older sister. Read the text and answer the question below.** (1p)

My name is Patrick and I just turned 10! I'm going to have a birthday party tomorrow and my older sister is coming too! I love my sister, she is the best! Her name is Paula and she lives in another city. She is a lot taller than me! She also has much longer hair than me. My mom and I have lighter hair, but my dad and my older sister have darker hair. My sister's hair is the darkest out of all of us and it's wavier than mine, I think that's cool! Mom always worries about her because her skin is a lot paler than mine, but Paula says it's because she has to study a lot and she doesn't have time to go outside. When Paula comes to my party, we're going to play outside and I'm going to show her my new swing!

2 **Who is Patrick's sister? Write the sister's name under the correct person.**

LIVEWORKSHEETS

3 **Patrick is describing the family dogs. Fill in the blanks with the right <u>comparative</u> or <u>superlative</u> form.** (5p)

Spots Tux Pip

My family has a dalmatian named Spots. My sister has her own dog - a small puppy named Tux. Spots is a lot _____ (big) than Tux, but Tux barks _____ (loud) than Spots. Tux can run really fast, but Spots is _____ (fast) because he has _____ (long) legs than Tux. My grandma has a small pomeranian named Pip. Pip is the _____ (fluffy) out of all of them! She is _____ (energetic) than Spots and Tux, but she's not very friendly. Spots is the _____ (big) and _____ (friendly) out of the three. Tux is the _____ (small), but the _____ (loud)!

4 **Patrick wants a cat. Read what kind of cat he wants. Then do the exercise below.**

For my 10th birthday, mom said we can get a cat! I like small and fluffy cats. I want to play with it and hug it a lot. I hope it gets along with dogs because we have dogs. Oh, and it can't be expensive - dad said we have to save money for a family trip to Spain.
