My birthday

Simple past

My Last Birthday

My Last Birthday

Last month, I celebrated my birthday with my family and friends. I woke up early and I felt very excited. My parents made a delicious breakfast for me, and my sister gave me a nice gift.

In the afternoon, we visited a park near my house. We played games, listened to music, and talked for hours. My best friend came to the party and brought a chocolate cake.

Not everything was perfect. We didn't go to the movie theater because it was closed, and I didn't receive a call from my cousin because he was traveling. However, everyone had a great time.

In the evening, we ate pizza and watched a funny movie. I didn't stay up late because I was tired. It was a wonderful birthday, and I really enjoyed it.

Simple Past

1. Regular Verbs
