### Adapting to Virtual Libraries

Modern school libraries look very different **1**\_\_\_\_ traditional ones. Instead of rows of heavy books, students now look **2**\_\_\_\_ digital screens to access academic articles. Most teenagers are highly interested **3**\_\_\_\_ using these digital platforms because they can search for information quickly. However, to find reliable sources, they must concentrate **4**\_\_\_\_ academic databases rather than social media. Teachers often host introductory workshops **5**\_\_\_\_ Mondays to help seniors develop these research skills.

### The Mystery of Bird Migration

Every year, millions of birds fly thousands of kilometers to escape the cold winter. This incredible journey usually starts **6**\_\_\_ autumn when temperatures begin to drop. Many species fly **7**\_\_\_ massive clouds and mountains, crossing entire continents without getting lost. Biologists believe that their ability to navigate depends **8**\_\_\_ Earth's magnetic field and the position of the sun. Some smaller birds prefer to travel **9**\_\_\_ night to avoid dangerous predators. Scientists who are interested **10**\_\_\_ animal behavior use small satellite tags to track these spectacular flights.

### The Evolution of Smartphones

Mobile phones have changed dramatically since they first appeared **11**\_\_\_ the 20th century. Early cellphones were heavy and completely different **12**\_\_\_ the thin devices we carry today. Modern smartphones are like small computers that easily fit **13**\_\_\_ our pockets. Today, millions of people rely **14**\_\_\_ these devices for work, entertainment, and education. Teenagers, in particular, spend hours looking **15**\_\_\_ their screens, which has made digital discipline a major topic of discussion for parents and teachers.
