

YAYASAN MANBA'UL HUDA SIDARAJA

SMA IT MANBA'UL HUDA

Dusun Wage Rt. 016 Rw. 004 Desa Sidaraja Kecamatan Ciawigebang Kabupaten Kuningan 45591
Telp. 081221710080 email: sekretariat.mbh@gmail.com

Mata Pelajaran	: Bahasa Inggris
Jenjang Pendidikan	: SMA IT Manba'ul Huda
Hari/Tanggal	: 2 Juni 2026
Waktu	: 60 Menit
Kelas	: XI (sebelas)

I. Pilihlah salah satu jawaban di bawah ini dengan tepat

Text 1. The following text is for questions no. 1 – 4

Dear Juliana

How are you? Hope everything is okay with you. I'm all right here. We are going to have the national examination, aren't we? Are you well prepared for it? Well, to be honest, I just have some difficulties in preparing for it, especially in science. There are extra lessons in my school and I take them all. But, I feel that they don't help. I'm still confused in solving mathematic problems. I'm just worried that I fail the national examination. Do you have any suggestion for me? I really appreciate your help. Please reply it soon.

Your friend, Wulandari

1. What does the letter tell us about?
 - A. Asking for a friend to teach mathematic
 - B. Preparing for the national examination
 - C. Asking for a friend's suggestion to solve a problem
 - D. Giving a solution to a friend
 - E. Having extra lesson at school
2. "I'm still confused in solving mathematic problems." The underlined word means ...
 - A. unable to read quickly
 - B. unable to think clearl
 - C. unable to behave politely
 - D. unable to perform well
 - E. unable to speak fluently
3. "I'm just worried that I fail the national examination." The antonym of the underlined word is ...
 - A. raise
 - B. underestimate
 - C. predict
 - D. success
 - E. reach
4. Why is Wulandari worried that she may fail the national examination?
 - A. There are extra lessons at Juliana's school
 - B. She will have the national examination soon
 - C. She is confused in solving mathematic problem
 - D. Her friends are all well-prepared
 - E. She appreciated Juliana's help

Text 2 The following text is for questions no 5 – 11

Gelatin is a protein substance that comes from the skins and bones of animals. Most people know it as the substance used to make a jellylike salad or dessert. Not only is it useful in making these foods, but it is also beneficial to the consumer because of its high protein content. Gelatin is also commonly used in the photographic industry and in making medicinal capsules.

The process for producing gelatin is a long and complex one. In the processing of gelatin made from bones, which varies slightly from that of gelatin make from skin, the grease first must be eliminated. Then, the bones are soaked in a solution of hydrochloric acid in order to rid them of minerals and are washed several ties in water. Next, the bones are placed in distilled water, heated to over 90°F for a few hours, placed in fresh

distilled water, and then heated again at a little over 100°F. A fluid forms from this heating, and it is concentrated, chilled, and sliced. Finally, it is dried and ground. In its final form, gelatin is white, tasteless, and odorless.

5. The text above discusses about ...
 - A. the process of making gelatin.
 - B. advantage of minerals.
 - C. uses of bones.
 - D. protein food.
 - E. gelatin's products.
6. "..... the grease first must be eliminated." (Paragraph 2) What does the underlined word mean?
 - A. fat
 - B. junk
 - C. acid
 - D. mineral
 - E. protein
7. Which of the following statement is **true**?
 - A. The chemical used in making gelatin comes off the surface of the bones by rinsing with water.
 - B. Gelatin made from skin is produced in the same way as that made from bones.
 - C. When the gelatin is dried, it is in powder form.
 - D. Grease probably does not aid in producing gelatin.
 - E. A fluid does not form from this heating.
8. "Next, the bones are placed in distilled water," (Paragraph 2). The word "distilled" is closely meaning to ...
 - A. hot
 - B. cool
 - C. boiled
 - D. plenty
 - E. purified
9. What is the main idea of the second paragraph?
 - A. The final form of gelatin is white and odorless
 - B. Gelatin can only be produced in distilled water
 - C. Producing gelatin is not simple work
 - D. Producing gelatin needs a lot of fresh water
 - E. Gelatin can be produced from two sources
10. From the text we know that ...
 - A. we can easily produce gelatin at home
 - B. gelatin can only be used in photographic industry
 - C. it is necessary to add mineral to the gelatin
 - D. fat aids in the process of making gelatin
 - E. gelatin is good food because of its high protein
11. "..... but it is also beneficial to the consumer" (par. 1). The underlined word means ...
 - A. useful
 - B. unfaithful
 - C. dangerous
 - D. various
 - E. addictive

Text 3 The following text is for questions no 12 – 15

Dear Fina,

Hi there. How are things with you? It's good to know that you are doing fine in business. Have you received my postcard? I am now sitting in my hotel room writing a letter to you about my wonderful holiday. I think this is the most wonderful holiday have I ever had. The people are very friendly. There are a lot of interesting tourist objects to visit, beautiful local art and craft, tasty traditional food, and much more. It's Thursday today. I can't believe this is my last day. I wish I could spend more time here. I am certain I will

stay longer on my next visit. I'll be home at about 3 p.m. tomorrow if the flight is on time. On Monday I must go back to work, I can't wait to show my video to my class. Okay, that's all for now. Send my love to your children. Bye.

**Best wishes from,
Fico**

12. The letter tells us about ...
- A. Fico's holiday in Bali
 - B. Fina's letter
 - C. Fico's experience
 - D. Fico's favorite places
 - E. Fina's plan to Bali
13. Which statements are true based on the letter above?
- A. Fina is Fico's sister
 - B. Fico is doing a business
 - C. Fina has not got married
 - D. Fico is a student
 - E. Fico's holiday was exciting
14. What day is Fico going to arrive home?
- A. Thursday
 - B. Friday
 - C. Saturday
 - D. Sunday
 - E. Monday
15. The letter shows that Fico ...
- A. has not eaten the day before
 - B. bought all beautiful local arts
 - C. has tried the traditional food
 - D. has showed his holiday video to his class
 - E. had bad holiday

Text 4. The following text is for questions no 16 – 20

In autumn, the color of the leaves changes into beautiful yellow, red, and brown. Do you know how this happens? To answer that question, first we have to understand about leaves.

Leaves are the food factories of plants. Plants take water from the ground through their roots and they take carbon dioxide from the air. Plants need glucose for energy and for their growth.

The plants use sunlight to turn water and carbon dioxide into glucose. The process is called photosynthesis and the substance that helps this photosynthesis process is called chlorophyll. This chlorophyll makes plants look green.

As summer ends and autumn comes, the days get shorter and shorter. The trees "know" that they have to be ready for winter. During winter, there is not enough sunlight or water for the photosynthesis process. The trees will rest, and use the food that they have stored during summer. The trees begin to close their food factories. The green chlorophyll substance disappears from the leaves. As the leaves begin to lose their green color, they change into beautiful yellow and orange.

In some trees, like maple tree, glucose is trapped in the leaves after the photosynthesis process stops. Sunlight and cool rights turn the green color of the leaves into red. Oak leaves become brown because of wastes that are left in the leaves. This combination of red and brown makes the trees look very beautiful in autumn.

16. What is the best title for the text above?
- A. Tree
 - B. Seasons
 - C. Photosynthesis
 - D. The changes of leaves
 - E. Beautiful Autumn

atmosphere.

25. Which title best expresses the ideas in the passage?
- A. A chemical Equation
 - B. The exchange of Respiration
 - C. The Process of Photosynthesis
 - D. The Parts of vascular Plants
 - E. The Production of Sugar
26. In photosynthesis, water ...
- A. must be present
 - B. is produced in carbohydrates
 - C. is stored in chemical energy
 - D. is diffused out of the leaf
 - E. interrupts the chemical reaction
27. Which process is the opposite of photosynthesis?
- A. decomposition
 - B. synthesization
 - C. diffusion
 - D. respiration
 - E. equation
28. The combination of carbon dioxide and water to form sugar results in an excess of ...
- A. water
 - B. oxygen
 - C. chlorophyll
 - D. carbon
 - E. stomata
29. The word "stored" in Paragraph 2 is closest in meaning to ...
- A. changed
 - B. discovered
 - C. connected
 - D. attended
 - E. saved
30. In photosynthesis, energy from the sun is ...
- A. synthesized
 - B. changed to chemical energy
 - C. stored in the tree
 - D. conducted from the xylem to the leaves of green plants
 - E. released one to one for each molecule of carbon dioxide used

II. Pilihlah jawaban benar! Jawaban lebih dari satu.

Greta Thunberg is a Swedish environmental activist who gained international recognition for challenging world leaders to take immediate action against climate change. Her movement began in August 2018, when she spent her school days outside the Swedish parliament holding a sign that read "*Skolstrejk för klimatet*" (School strike for climate).

She famously practices what she preaches; she refuses to fly to reduce her carbon footprint, adapts a vegan lifestyle, and uses solar-powered racing boats to cross the Atlantic Ocean. Her blunt, straightforward speaking style has inspired millions of youths worldwide to join the "Fridays for Future" protests.

1. Based on the text about Greta Thunberg, which of the following statements are correct? (**Select 3 correct answers**)

<input type="checkbox"/>	A. Greta started her climate movement by skipping school to protest outside the parliament.
<input type="checkbox"/>	B. She strongly supports the aviation industry by regularly flying to international climate summits.
<input type="checkbox"/>	C. Her direct and bold way of speaking has successfully motivated millions of young people globally.

	D. She demonstrates her environmental commitment through her personal lifestyle choices, such as eating vegan.
	The "Fridays for Future" movement was established long before Greta started her individual protest.

2. The text mentions that Greta has a "**blunt**, straightforward speaking style." Which of the following words are closest in meaning to the underlined word "**blunt**" in this context? (**Select 2 correct answers**)

	A. Direct
	B. Polite
	C. Outspoken
	D. Dishonest
	E. Hesitant

Boyan Slat is a Dutch inventor and entrepreneur who creates advanced technological solutions to tackle global environmental issues. At just 18 years old, he founded *The Ocean Cleanup*, a non-profit organization dedicated to developing systems to rid the world's oceans of plastic.

Instead of using nets and vessels to chase the plastic—which would take thousands of years and cost billions of dollars—Boyan's organization designs passive cleanup systems that utilize natural oceanic currents to automatically loop and trap plastic debris. He emphasizes that scientists and engineers must work together to halt the plastic influx from rivers before it reaches the sea.

3. What information can be directly found or concluded from the text about Boyan Slat? (**Select 3 correct answers**)

	A. Boyan Slat focused his environmental efforts on clearing plastic pollution from the marine environment.
	B. <i>The Ocean Cleanup</i> is a profitable commercial business that sells recycled ocean plastics to luxury brands.
	C. His system is designed to catch plastic by passively taking advantage of the ocean's natural currents.
	D. Using traditional nets and vessels is considered by Boyan to be highly efficient and cost-effective.
	E. Boyan believes that stopping plastic at the river source is a critical step in solving ocean pollution.

4. In texts about environmental figures, passive voice is often used to emphasize the actions or objects rather than the person. Look at this sentence from the text: "*The Ocean Cleanup is a non-profit organization **dedicated** to developing systems...*"

Which of the following sentences correctly use the **Passive Voice** form? (**Select 2 correct answers**)

	A. Millions of plastic bottles are discarded by people every single day.
	B. Boyan Slat invented a floating barrier to trap plastic trash in the rivers.
	C. Global warming is being actively fought by environmentalists around the world.
	D. We must reduce our daily energy consumption to save the planet.
	E. Forests provide fresh oxygen and shelter for various endangered wild animals.

5. Materi *Environmental Figure* di kelas 11 biasanya diintegrasikan dengan *Analytical Exposition Text* (teks yang meyakinkan pembaca bahwa ada isu penting). If you are writing an analytical exposition text arguing why **local environmental figures deserve more support**, which of the following arguments would strongly support your thesis? (**Select 3 correct answers**)

	A. Local figures understand the specific ecological challenges of their own regions better than outsiders.
	B. Supporting local heroes requires an extremely large budget that always damages the country's economy.
	C. Their grassroots initiatives often provide immediate, practical solutions directly to the affected communities.
	D. Empowering local activists inspires nearby citizens to adopt eco-friendly habits in their daily lives.
	E. International organizations are the only ones capable of solving small-scale environmental problems.

"Sufficient sleep is often neglected in today's fast-paced world, yet it is a cornerstone of a healthy future. During deep sleep, the body repairs damaged tissues, regulates hormones, and consolidates memory. Chronic sleep deprivation is linked to a higher risk of obesity, weakened immunity, and cardiovascular diseases. Therefore, teenagers should aim for 8 to 10 hours of quality sleep each night to ensure optimal growth."

6. Determine whether these statements are **True (T)** or **False (F)** based on the text:

	Conclusion	True	False
1	The text implies that physical cellular repair only happens when a person is awake.		
2	Getting less sleep over a long period can increase the likelihood of becoming obese.		
3	According to the text, teenagers need a minimum of 6 hours of sleep for optimal growth.		
4	The word "neglected" in the text means "ignored" or "not given enough attention".		
5	"Cardiovascular diseases" refer to health problems related to the human digestive system.		

7. In discussions about a healthy lifestyle, modal verbs like *should*, *must*, *ought to*, and *had better* are frequently used. Analyze the grammatical correctness and meaning of these sentences:

	Statement	True	False
1	"You should to drink at least two liters of water every day to stay hydrated." is grammatically correct.		
2	"We must avoid excessive consumption of ultra-processed foods." expresses a strong necessity for health.		
3	"You had better not skip breakfast if you want to maintain your energy levels." is a correct negative advice form.		
4	The modal verb <i>should</i> in "Teenagers should limit screen time" is used to express a past regret.		
5	"She ought eat more green vegetables for better digestion." follows the correct grammatical pattern.		

"A healthy future is not just about physical fitness; it deeply involves mental well-being. The rise of digital dependency has led to increased anxiety and sleep disturbances among youth. Practicing a 'digital detox'—intentionally reducing time spent on smartphones and social media—helps individuals reconnect with physical reality, reduces stress hormones, and improves mindfulness."

8. Determine whether these statements are **True (T)** or **False (F)** based on the text:

	Statement	True	false
1	The text argues that a healthy future can be achieved solely by focusing on physical fitness.		
2	Digital dependency is directly blamed for causing anxiety and disrupting sleep patterns.		
3	A 'digital detox' means completely throwing away all electronic devices forever.		
4	One of the benefits of reducing screen time mentioned is the lowering of stress hormones.		
5	The word "mindfulness" in the text relates to a state of being conscious and mentally present.		

9. Conditional sentences are often used to state the future consequences of our current lifestyle choices. Analyze the conditional structures below:

	Statement	True	False
1	<i>"If you exercise regularly, your body will become stronger and more resilient."</i> is a correct Conditional Type 1.		
2	<i>"If she doesn't reduce her sugar intake, she would risk getting diabetes."</i> is grammatically well-structured.		
3	<i>"Your mental health will improve if you manage your stress levels well."</i> follows the correct conditional pattern.		
4	Conditional Type 1 sentences are used to talk about impossible past situations that cannot be changed.		
5	<i>"If we sleep late every night, we will felt exhausted the next morning."</i> is grammatically correct.		

Mastering personal management is a vital skill for students to achieve academic success and reduce anxiety. One effective method is using the Eisenhower Matrix, which divides daily tasks into four categories based on urgency and importance. Procrastination—the habit of delaying tasks—often happens when a student prioritizes short-term comfort over long-term goals. If a student **allocates** fixed blocks of time for studying each day, their productivity will consistently increase."

10. Determine whether these statements are **True (T)** or **False (F)** based on the text and grammar context:

	Statement	True	False
1	According to the text, the Eisenhower Matrix organizes tasks primarily based on how difficult and expensive they are to complete.		
2	Procrastination is defined in the text as a positive habit that helps students focus better on their long-term goals.		
3	The underlined word " allocates " in the text has a similar meaning to "distributes" or "sets aside".		

4	The last sentence of the text (" <i>If a student allocates...</i> ") uses a correct Conditional Type 1 structure to show a future result.		
5	The text implies that poor personal management can lead to an increase in student anxiety.
