# MY FAVORITE MOVIE

*Read the three texts and answer the questions below.*

**A. Ben – The Black Pirate**

My favorite movie is *The Black Pirate*. It's an exciting adventure film about a young pirate who looks for hidden treasure. There are lots of action scenes and the special effects are amazing. I watched it with my older brother last month. We both loved it. I don't usually like romantic films because I think they're boring, but adventure films are always interesting. I want to watch The Black Pirate again soon.

**B. Emma – The Wizard's Hat**

I love *The Wizard's Hat*. It's a funny fantasy film about a boy who finds a magical hat. The hat causes lots of problems, but the story has a happy ending. I went to see it with my best friend. We laughed all the way through the movie. Many of my friends enjoy horror films, but I don't like them because they're too frightening. I prefer funny films that make me smile.

**C. Sofia** – Juliet and Romeo

My favorite movie is *Juliet and Romeo*. It's a romantic film about two teenagers who fall in love. Some people think romantic films are boring, but I don't agree. I think this movie is very interesting and sometimes quite sad. I watched it on TV with my mother on a rainy Saturday afternoon. My favorite part is the ending because it's emotional and unforgettable.
