  - a) Microsoft Word
  - b) Google Chrome
  - c) Gmail
  - d) Notepad
  
6. Scratch is an online coding community that allows students to:
  - a) Download viruses safely

- b) Create and share interactive projects with others
  - c) Send emails automatically
  - d) Browse websites without internet
7. Which of the following is NOT a safe practice when participating in an online coding community?
- a) Using a username that does not reveal your real name
  - b) Sharing your home address in your profile
  - c) Giving constructive feedback on others' projects
  - d) Reporting inappropriate content to moderators
8. When you share a project on an online coding community like Scratch, what should you always include?
- a) Your phone number
  - b) A clear title and brief description of what the project does
  - c) Your school's password
  - d) Personal photos
9. What is "information literacy"?
- a) The ability to type fast on a computer
  - b) The skill to recognize when information is needed and how to find, evaluate, and use it effectively
  - c) Reading books only from the library
  - d) Memorizing all information found online
10. Which of the following is the BEST strategy for checking whether online information is reliable?
- a) Accept information if it appears on any website
  - b) Only trust information from social media
  - c) Check the author, date, and whether other trustworthy sources agree
  - d) Trust information that has many "likes" or shares
11. A website that ends in ".gov.bt" most likely belongs to:
- a) A private company in Bhutan
  - b) A government agency in Bhutan
  - c) A foreign news organization
  - d) A personal blog
12. Which of the following is an example of "fake news"?

- a) A news article written by a verified journalist with cited sources
- b) A government press release about a new policy
- c) A made-up story designed to mislead readers, shared as if it were true
- d) A school textbook approved by MoESD

13. When evaluating an online source, what does checking the "currency" of information mean?

- a) Checking how much the information costs
- b) Checking whether the information is up-to-date and published recently
- c) Checking if the information is in English
- d) Checking the font style of the website

14. Which of the following is the most credible source for a school project about Bhutan's history?

- a) An anonymous post on a social media page
- b) A classmate's personal blog
- c) The Royal Government of Bhutan's official website
- d) A random comment in an online forum

15. Before using information found online in your schoolwork, you should:

- a) Copy it directly without reading it
- b) Evaluate the source, check for accuracy, and credit the original author
- c) Use it only if the website looks colourful and modern
- d) Share it immediately on social media first

### Section B Structured Question (3X5=15)

Answer all three questions. Each question has two sub-questions (a) worth 2 marks and (b) worth 3 marks.

#### Question 1

*"Karma wants to send a message to her teacher, Madam Deki, to submit her project. She opens Gmail for the first time and is unsure how to compose and send the email correctly."*

- a) List **two important parts** Karma must fill in correctly before sending an email to her teacher. (2Marks)

Answer:

---

---

---

---

---

---

---

---

---

---

- b) Explain **three good email practices** Karma should follow when writing a formal email to her teacher. (3Marks)

Answer:

---

---

---

---

---

---

---

---

---

---

### Question 2

Tashi's ICT teacher asks the class to create a project on Scratch and share it with the online coding community.

- a) State **two benefits of sharing a coding project on an online community like Scratch**. (2Marks)

Answer:

---

---

---

---

---

---

---

---

---

---

- b) Tashi notices another student has posted an unkind comment on his project. Describe **three responsible steps** Tashi should take to deal with this situation safely and ethically. (3Marks)

Answer:

---

---

---

---

---

---

---

---

**Question 3**

**Pema is researching "effects of deforestation in Bhutan" for her school project. She finds two websites: one is a personal blog with no author name or date, and the other is the National Environment Commission of Bhutan's official website updated in 2024.**

- a) Identify **two reasons** why the National Environment Commission's website is a more reliable source than the personal blog. **(2Marks)**

Answer:

---

---

---

---

---

---

---

---

- b) Explain the **CRAAP test** (or any three criteria for evaluating online information) and how Pema can apply them to choose the better source for her project. **(3Marks)**

Answer:

---

---

---

---

---

---

---

---
