A) READING. Instructions: Read the text below and answer the comprehension questions that follow. (_____/5pts)

My Sister, The Cyclone

My older sister, Elena, is a third-year architecture student, which probably explains why our shared apartment constantly looks like a structural disaster zone. She has a striking physical appearance that mirrors her chaotic energy—wavy, ***untamed dark hair*** that she usually jams into a messy bun with a pencil, and sharp, expressive eyes that instantly give away whatever she is feeling. She is quite tall and slender, and she always dresses in oversized vintage jackets.

People often mistake her initial quietness for being ***aloof***, but she's actually just observing everything. Once she warms up to you, she is incredibly ***witty.*** When she isn't buried under her university blueprints, she loves dedicating her free time to her two favorite hobbies: landscape photography and long-distance running. Every Saturday morning, she wakes up at dawn to run ten kilometers, capturing stunning photos of the city's old buildings along the way.

Despite her hectic routine, Elena is the most dependable person I know. Last semester, when I was completely ***swamped with*** my freshman calculus exams, she set aside her own massive deadlines to sit with me at midnight, calmly sketching out geometric diagrams until the math finally made sense to me. I pretend to roll my eyes at her messy lifestyle, but truth be told, I constantly ***look up*** to her and consider her my absolute role model.

1. Elena wears modern, tight athletic clothes when she goes out.
2. Elena is actually unfriendly and dislikes talking to new people.
3. Elena does both of her hobbies on Saturday mornings.
4. Elena refused to help her brother with math because she had too much homework.
5. In his final comment, the brother admits that he secretly admires his sister.
