

ALIPHATIC HYDROCARBONS

NOMENCLATURE

Match the compounds with their corresponding nomenclature. Write the corresponding number.

1. undecane

2. propane

3. hexane

4. methane

5. heptane

6. octane

7. tetradecane

8. decane

9. ethane

10. butane

11. heptaiecosane

12. nonane

13. dodecane

14. tridecane

15. pentadecane

16. eicosane

17. pentane

18. octadecane
